Synthetic QA - Community health and school attendance

Synthetic report fixture. This contains no production data or personal records.

Reporting window: All dates through Present (UTC).
Generated: 2026-10-24 19:52 UTC. Last successful sync: Not recorded.
Generated from current saved data. FieldSight does not retain a historical snapshot for this report. Dates filter actuals; overall targets are not prorated.

Ready	Needs review	Invalid
0	**0**	**0**

Submission counts in the selected window. Linked indicators use ready records; manual entries are independent of submission review.

QA-2 - No data yet

Actual	Baseline	Overall target
Not reported	Not reported	100

Unit: number. Reporting period: monthly. Status: no data. Source: Not configured.
Missing: 0; invalid answers: 0; excluded by review: 0. Numerator: Not reported; denominator: 0.
Only ready submissions from the mapped form are included. Missing and invalid answers are excluded from answer-based denominators. Multi-select matching counts each submission once. Count records includes all ready submissions, even without a question answer. Period results are independent aggregates, not cumulative totals. Undated records remain eligible for overall calculations but cannot be assigned to reporting periods. Below-target results before the deadline are in progress; no pace estimate is assumed.

QA-3 - Pooled coverage across communities

Actual	Baseline	Overall target
10%	Not reported	100

Unit: percentage. Reporting period: monthly. Status: no deadline. Source: 2 manual entries.
Missing: 0; invalid answers: 0; excluded by review: 0. Numerator: 10; denominator: 100.
Pooled manual results: sum(numerator) / sum(denominator) × 100. The same method is applied independently to each reporting period and location. Manual results are separate from linked submissions.

QA-0 - Total visits

Actual	Baseline	Overall target
30	Not reported	100

Unit: number. Reporting period: monthly. Status: no deadline. Source: 1 manual entries.
Missing: 0; invalid answers: 0; excluded by review: 0. Numerator: 30; denominator: 1.
Manually entered results only; linked table records are not combined. Numeric results are summed. Reporting periods use each result's date.

QA-1 - Zero is reported

Actual	Baseline	Overall target
0	Not reported	100

Unit: number. Reporting period: monthly. Status: no deadline. Source: 1 manual entries.
Missing: 0; invalid answers: 0; excluded by review: 0. Numerator: 0; denominator: 1.
Manually entered results only; linked table records are not combined. Numeric results are summed. Reporting periods use each result's date.
